**Suggested retail price:** 37.99 € s DPH

### Description

Boys thermal underwear brand 4F. Children's thermal underwear includes an upper and a lower part. The package includes thermal pants and a thermal T-shirt with long sleeves. Thermal clothing for children is seamless, so it reduces the risk of skin irritation and chafing. It is suitable as a bottom layer during cold days. Thanks to the 4F Skin technology, thermal underwear is flexible and adapts to the body. At the same time, it does not hinder movement. Quick-drying 4F Dry fibers support moisture removal.

Children's thermal clothing has raglan sleeves for a T-shirt. The thermal T-shirt is decorated with the 4F logo on the front. Thermal pants for boys are ankle-length. You can use children's thermal underwear during winter fun under winter clothes.
