Description

Under Armor men's kit. The sports set is designed in a modern sports design. The clothing set consists of a sweatshirt and pants. The sweatshirt has a stand-up collar for excellent neck protection in colder weather. Two side pockets are a matter of course. The sweatpants have an elastic waist that adapts very well to the figure. The trousers have two side pockets for storing small items.

The strength of the exercise set is the light and durable material that is pleasant to the touch. In addition, it wicks away sweat excellently and dries quickly. Thanks to these properties, it is a support during training. The Under Armor black tracksuit is the perfect choice for sports activities, various types of exercise and training.
