Description

Under Armor men's jacket. The branded jacket is a combination of functionality and durability. The strength of the sports jacket is the UA Storm technology, which ensures a water-resistant finish. The advantage of the windbreaker for sports is the wind-resistant construction. The training jacket is made of light yet durable fabric.

4-way stretch technology guarantees a high level of movement. Thanks to the classic cut, the sports windbreaker fits every body type. The back of the men's jacket has a special construction for even better air circulation. A bonus is the hood, which comes in handy in dry weather. The men's windbreaker not only has two side zip pockets, but also an internal media pocket on the right side. The blue Under Armor jacket is ideal for training, sports activities and free time.
