Description

Under Armor men's jacket. The sports jacket is a combination of functionality and a modern look. The construction of the training jacket is wind resistant and protects very well in colder weather. The advantage of the sports jacket is the UA Storm technology, which ensures waterproofness.

The training jacket is made of ultra-soft material. Thanks to this, it acts like a sweatshirt, but provides a higher degree of protection. The Under Armor jacket is a guarantee of warmth. A practical hood comes in handy in bad weather. Two side pockets are used to store small items such as coins, keys and the like. The blue jacket for men is great for training, sports activities and active leisure time.
