Description

Women's t-shirt brand 4F. The short-sleeved T-shirt is light and comfortable to wear. The proportion of elastane makes it slightly flexible, which adapts to your figure when you move. The sports t-shirt is quick-drying. Thanks to the perforations on the back and front, it provides proper air circulation. You can use the pink T-shirt for running, exercise or other favorite activity.

The 4F t-shirt has a round neckline and a classic cut that fits well on the figure. Flat seams prevent skin irritation and provide comfort when wearing. The women's T-shirt uses 4F Dry technology. This will ensure proper drainage of moisture. The functional t-shirt for ladies also has reflective elements that improve visibility in poor conditions.
