Suggested retail price: 74.99 € s DPH

Description

Women's jacket brand 4F. The hiking jacket is made of ultra-light material and is easy to pack. The jacket is insulated with PrimaLoft® Black Eco synthetic filling, thanks to which it will provide maximum thermal comfort in cold weather. The black women's jacket is therefore the right companion for hiking adventures.

The hiking jacket has quilted panels on the sleeves, front and back that are impregnated with a hydrophobic coating to protect the jacket from excessive moisture absorption. The women's windbreaker closes with a zipper with an internal flap against the wind. The top is finished with a stand and a built-in hood. The quilted jacket has 2 side pockets with zip fastening. The sleeves and bottom hem of the sports windbreaker is finished with an elastic hem with a rubber band, which help to insulate against winter and cold.
