Description

Men's footwear brand Anta. Sports sneakers for men who prefer an active lifestyle and comfort in one. The sneakers have a distinctive color that catches the eye at first glance. The durable upper, thanks to the breathable technical mesh material, will provide the necessary air circulation. The red sneakers have a reinforced tip with additional material, so your toes are protected and at the same time the lifespan of the sports shoes is extended.

Men's sneakers have laces that are in a contrasting black and white color. The red boots have an Auto-arch midsole. It gently cushions on an uneven surface and ensures shock absorption. A padded collar and a comfortable insole inside also contribute to comfort during wear. The back part of the heel is extended, so the stylish sneakers are easy to put on and take off. The rubber sole holds well on uneven or wet surfaces. Men's boots are suitable for leisure, exercise or outdoor workouts.
