Description

Under Armor women's leggings. Leggings in an original look belong to the limited Project Rock collection. An interesting element is the Project Rock logo on the front of the waistband and the UA logo on the side. Thanks to the super light HeatGear fabric, the leggings ensure an excellent wearing feeling. The material wicks away sweat perfectly and dries quickly.

Fitness leggings with a high waist also use 4-Way Stretch technology, thanks to which they ensure a high degree of movement. Flat seams that do not irritate the skin also contribute to the feeling of comfort. The brand's leggings feature a high-cut UA No-Slip waistband for optimal coverage and support. Even during demanding sports activities, Under Armor leggings stay in place. An open side pocket is a bonus. Leggings for ladies are suitable for sports activities and leisure time.
