**Description**

Fundango women's pants. The ski pants are made of softshell material, which ensures their flexibility and functionality. The ski pants have a Dripex membrane with a water column of 15,000 mm, while maintaining breathability. Women's softshell pants have a trendy eggplant color and a modern cut. The ski pants have a zipper and a built-in belt that you can adjust.

The waterproof trousers have practical side zip pockets. Women's warmers have a Regular fit cut and sit well on the figure. Elastic material in all four directions does not hinder movement. Shaped knees also contribute to freedom of movement. The burgundy snow pants have zippers on the bottom that allow the pants to be pulled over ski boots. Snow pants are a great choice for skiing and winter sports.
