Description

Men's jacket by Fundango brand. The ski jacket for men has a modern print. The loose fit and functional properties will make it your favorite companion during winter fun. In winter, you will be warmed by a warm filling made of synthetic material, which helps maintain the heat produced by the body and prevents heat loss. The necessary breathability was also preserved. The advantage of the men's windbreaker is its Dripex membrane with a water column of 10,000 mm. The waterproof jacket has a built-in hood with drawstrings. The jacket has undergone a hydrophobic DWR treatment, so water runs off it and does not soak inside.

The ski windbreaker fastens with a zipper, which is protected from the outside by a protective flap against the wind. It has five outer pockets. Two on the hips, two on the chest and one on the skipass sleeve. The ventilation holes in the armpits for regulating body temperature are also an advantage. The black windbreaker has inner cuffs with thumb holes and outer adjustable cuffs with velcro. The cuffs keep your hands warm without restricting free movement. Welded seams in the most critical places are a bonus. A stylish winter jacket will please all active men.

Product details:

- men's ski jacket
- all-over trendy print
- free cut
- built-in hood with drawstring
- Dripex membrane
- hydrophobic DWR treatment
- warm synthetic filling
