Description

Men's jacket by Fundango brand. The advantage of the ski windbreaker is the DWR water-resistant finish, thanks to which even adverse weather will not surprise you. The waterproof jacket has a Dripex membrane, which contributes to water resistance and also ensures breathability. Even better air ventilation is ensured by the ventilation openings on the zip. The synthetic lining of the ski jacket will keep you warm even in adverse weather conditions without compromising ventilation. The construction made of elastic material and the ergonomic cut ensure complete freedom of movement and also allow layering of technical clothing.

A practical hood will definitely come in handy on dry days. The ski jacket has several pockets that hide everything you need. There is also a pocket for a ski pass. The functional ski jacket has an adjustable hem with a drawstring. The sleeves of the blue jacket are finished with elastic cuffs with thumb holes and adjustable Velcro cuffs. Men's windbreaker in blue - yellow design is the perfect choice for skiing, winter sports and winter outdoor activities.
