Description

Men's jacket by Fundango brand. The strong point of the ski windbreaker is the DWR water-resistant finish. The waterproof jacket has a Dripex membrane, which contributes to water resistance and also ensures breathability. The jacket closes with a zipper and provides the necessary thermal comfort thanks to the synthetic filling. The ventilation holes on the zipper ensure even better air circulation. The construction made of elastic material and the ergonomic cut ensure complete freedom of movement and also allow layering of technical clothing.

The sleeves of the blue jacket are finished with elastic cuffs with thumb holes and adjustable Velcro cuffs. On cold days, you will definitely appreciate the hood. The ski jacket has several pockets that hide everything you need. There is also a pocket for a ski pass. The functional ski jacket has an adjustable hem with a drawstring. The jacket in blue - yellow design is a great choice for skiing, winter sports and winter outdoor activities.
