Description

Women's sweatshirt by Northfinder brand. The hiking jacket has a technical design of a high level. The construction of the trekking sweatshirt is designed with an emphasis on wind resistance. Thanks to the classic cut, it suits every body type. The advantage is the anti-pilling treatment of the material, which extends the life of the sweatshirt.

The advantage of the trekking sweatshirt is the reinforced parts for a higher level of resistance. Pre-curved sleeves contribute to a wide range of motion. A sweatshirt for the mountains will keep you warm in bad weather. The built-in hood comes in handy when the weather suddenly deteriorates. There are also two side pockets for storing small items. The branded sweatshirt is a reliable choice for trekking, camping, hiking trips and outdoor expeditions.
