Description

Women's jacket by Northfinder brand. The women's windbreaker will attract attention with a very interesting appearance. The front lower part and the back side are made of structured material. Stripes on the front add style to the ski windbreaker. The artificial fur, which is detachable, looks elegant. If you want to be the star of the slopes, this winter jacket is exactly for you.

The advantage of the ski windbreaker is that critical seams are taped. The women's ski jacket is windproof and guarantees very good thermal insulation. Windbreaker for ladies protects in adverse weather. At the same time, it provides excellent breathability. A wide range of motion is a matter of course. The black jacket is perfect for skiing, winter sports and winter outdoor activities.
