### Description

Kayland women's shoes. Low women's hiking shoes stand out with a nice feminine design. Gray hiking boots have a light construction and are designed for fast hiking in mixed terrain. Women's hiking shoes have an upper made of suede and synthetic fabric, which perfectly surrounds the sole and instep. It is made to adapt as much as possible to the anatomy of a woman's foot. It goes without saying that the Gore Tex Extended Comfort membrane is resistant to adverse weather conditions.

Kayland shoes have asymmetric lacing, which can be personalized to the maximum and provides stability around the entire foot. Reinforced heel and toe will provide support and protection. Trek shoes have a lightweight EVA midsole with shock absorbing properties. Women's hiking boots have a high-quality Vibram Multiverse sole, designed specifically for mixed terrain with maximum grip on the heel and a full toe for climbing safety. Outdoor shoes for ladies will please all stylish hikers.
