Description

Blizzard men's jacket. The windbreaker for skiing catches the eye with its nice yellow color, which is very trendy. The ski jacket also meets demanding criteria - it is synonymous with durability and reliable functional properties. The advantage of the ski windbreaker is the DWR waterproof treatment, which enables waterproofing. A high degree of breathability and water resistance is a sign of a quality jacket. The taped seams are a bonus.

The ski windbreaker has a practical removable hood. The plus of the ski jacket is the ventilation holes, which ensure very good air ventilation. The snow belt prevents snow from penetrating the jacket. A ski jacket guarantees a high degree of movement. Reflective logos will improve your visibility in poor lighting conditions. The yellow Blizzard jacket for men is perfect for skiing and winter sports.
