**Description**

Blizzard men's jacket. The ski jacket also meets demanding criteria - it is synonymous with durability and great functional properties. The advantage of the ski windbreaker is the DWR waterproof finish, which ensures waterproofness. A high degree of breathability and water resistance is a sign of a quality jacket. Taped seams are a benefit.

The ski windbreaker has a removable hood. The plus of the ski jacket is the ventilation holes, which ensure very good air ventilation. The snow belt prevents snow from penetrating the jacket. A ski jacket guarantees a high degree of movement. Reflective logos will improve your visibility in poor lighting conditions. The blue jacket is a top choice for skiing and winter sports.
