Description

Garmont men's shoes. Men's shoes impress with their modern design. The higher cut protects the foot better and provides a higher level of stability. Winter boots have a classic lacing that perfectly fixes the foot. The plus point of winter boots is the robustly reinforced toe and heel, which will ensure a higher level of foot protection.

The advantage of winter footwear is the waterproof PrimaLoft lining, which surprises with its excellent functionality. The Thermal Comfort insert provides warmth during adverse weather. The Hypergrip Icelock sole guarantees great grip and traction even on wet terrain. Black boots are great companions for casual wear during the winter season.
