Description

Blizzard brand skis. Branded skis are intended for advanced skiers who appreciate their technology and know how to enjoy riding to the fullest. Blizzard skis are suitable for groomed slopes, where they will allow you to reach a decent speed and enjoy the ride. They are perfectly tuned to give you precision, stability and speed from edge to edge. Their excellence lies in the C-Spine and C-Armor carbon technologies, which, together with the double titanal sandwich side wall, have created ready skis just for you.

Downhill skis have Marker XCELL 14 DEMO bindings. Thanks to it, Firebird skis are high-performance. Skis for the slopes have a modern design in a professional style.

Binding is included in the price of the skis.
