Description

Merrell women's shoes. Women's trekking shoes with a Gore-Tex waterproof membrane are the right choice for hiking expeditions. Trekking shoes provide first-class comfort. They have a durable upper made of synthetic leather, which is complemented by a textile part made of mesh. This will enable excellent air ventilation. The higher ankle cut is intended for more demanding conditions and will provide proper protection and stability of the leg.

Outdoor shoes have a reinforced heel and toe. The Vibram sole guarantees excellent traction and grip. Ankle hiking boots are tied with laces, thanks to which they adapt well to the foot. Kinetic Fit™ technology prevents foot fatigue with the help of a shaped insole. Merrell Air Cushion provides stability and absorbs shocks. Women's mountain boots are the right choice for all active hikers. Ideal for trekking, camping and outdoor adventures.

Product details:

- Durable and breathable upper
- Reinforced heel and toe
- GORE-TEX® waterproof membrane, exceptional breathability and water resistance
- 100% recycled laces
- Protective and abrasion-resistant rubber heel and toe
- 100% recycled breathable mesh lining
