### Description

Buff brand neckerchief. The blue multifunctional scarf is suitable for both men and women. The ThermoNet® neck warmer has been designed to provide excellent protection against the cold. It stands out for its low weight, is easy to store and has excellent thermal insulation properties. The Buff neck warmer is extremely warm and versatile during outdoor activities in cold weather. Whether it's running, hiking, cycling or riding a motorbike. ThermoNet® technology makes it possible to create 4 times warmer microfibers and thus provide maximum thermal comfort.

The women's or men's neck warmer is sufficiently breathable and quick-drying. Thanks to its properties, it will provide top protection against cold and wind. The multifunctional scarf will surely become your favorite companion. It was also made from recycled materials.
