Description

Scarf brand BUFF. The bandana is designed in an interesting design with a geometric print. The ThermoNet® neck warmer provides excellent protection against the cold. The extremely warm and light BUFF scarf provides maximum protection during outdoor activities in cold weather: ideal for running, hiking, cycling or riding a motorbike.

ThermoNet® technology makes it possible to create 4 times more heat. The benefit of the BUFF scarf is a high level of breathability and a quick drying function. In addition, it wicks away sweat perfectly and dries quickly. The multifunctional scarf is made of recycled material.
