Description

BUFF brand neckerchief. Lightweight multifunctional scarf is made of 100% merino wool. Natural merino wool is soft to the touch, naturally resists odors and provides high comfort during wear. The main advantage of merino wool is its excellent thermoregulatory properties.

The merino neckerchief has a universal black color, so it is easy to combine. It is suitable as a women's and men's neck brace. The Buff scarf has a universal use and can be worn in many ways. It can be used as a headband, bandana or veil. It prevents the multiplication of bacteria and thus the creation of an unpleasant smell. Perfect for low-intensity activities such as hiking or horseback riding.
