Description

Bolle ski helmet. The helmet has a modern design in a matte finish. The black helmet is complemented by red-orange details and a white brand logo. It stands out with its functional features, which make it a suitable choice for downhill skiing for all lovers of this sport. The ski helmet has an adjustable helmet ventilation system - AIR FLOW EXTRACTOR. You can adjust the size thanks to the patented CLICK TO FIT system.

Thanks to AVID PROGRESSIVE EPS technology, the ski helmet ensures greater impact resistance and better ventilation. The Deluxe inner padding is extra comfortable and removable and can be washed at 30 degrees. The Bolle helmet has a durable DOUBLE INMOLD hybrid construction with EPS. Removable 3D ear covers - REMOVABLE 3D EAR PADS are also an advantage. The practical CHIN STRAP allows for individual adjustment according to your needs. There is also a clip on the back for attaching ski goggles.
