Description

Bolle ski helmet. The white ski helmet will please everyone who wants to look trendy even on the slopes. The helmet was designed with an emphasis on functionality and quality materials were used for its production. The construction of the helmet was made by injection ABS, which guarantees high strength and shock absorption, thus ensuring a robust construction.

The ski helmet has an integrated ventilation system, where strategically placed ventilation holes on the helmet ensure constant air flow. Adjustable ventilation allows regulation of air flow for maximum comfort. The advantage is the padded and replaceable insole, which you can also wash. The ear protectors are also removable. The Bolle helmet can be easily adjusted using the Click to Fit system.
