

Women's running trail shoes HOKA ONE ONE-Speedgoat 5 deep teal/water garden**Available sizes****Reference number****Ean number****Quantity****Suggested retail price:** 149.99 € s DPH**Description**

Hoka One One women's shoes. Hoka running sneakers have a beautiful colorful design, but you will also love them thanks to their functional properties. The Speedgoat model is among the most popular models of this brand. This trail shoe is suitable for rough terrains. With a new midsole that is extra light, this stylish running shoe will give you a more sensitive ride. The advantage is even greater traction than in the previous series. The wider front part of the trail shoes provides runners with a more stable ride and fit. A bonus is the Vibram Megagrip rubber sole. It is exceptionally grippy in both wet and dry conditions, which you will appreciate on trails. The Hoka trail shoes have a new updated upper made of dynamic mesh. It will provide you with the necessary comfort and proper breathability.

Trail shoes also stand out with 3D printed overlays on the upper. They will provide you with additional support for the middle part of the foot. Hoka running shoes have a reinforced tongue with strategic cutouts for greater breathability. The trail sneakers have lacing eyes with a small wing-shaped component that ensures a secure fit. The Vibram Megagrip sole has 5 mm "step" lugs. They offer additional support and stability in one.
