Description

Salewa men's shoes. The hiking boots appeal with a refined design. The strength of the trekking shoes is the Gore-tex membrane, which guarantees waterproofness and breathability. Comfort during wearing is ensured by the Ortholite insole, which reduces leg fatigue. Trekking shoes have a 3F system that supports the ankle and flexibility when walking.

Men's forest boots have a PU midsole that perfectly absorbs shocks and provides excellent cushioning. Vibram MTN Trainer Evo sole conquers any terrain. The loop on the back is used for easier putting on and taking off shoes. Vibram shoes for men are great companions for the mountains, for trekking, outdoor activities and camping.
