Suggested retail price: 29.99 € s DPH

Description

Women's winter cap from Under Armour. The winter hat is made of pleasant material and will provide the necessary thermal comfort. It has a universal black color, so it is easy to combine. It is decorated with a patch with the UA logo, which is located on the ribbed cuff at the bottom of the cap.

The Under Armour cap uses UA Storm technology, which makes it resistant to water that doesn't soak in, but runs off in drops. The black women's cap has a pleasant warm interior made of combed fleece thanks to Armor Fleece®. Another advantage of a knitted hat for winter is the hole through which you can thread a braid or a braid. So you can wear your hair the way you like even in winter.
