Description

Women's skis brand Volkl. Allmountain skis Flair 72 with a width of 72 mm under the foot are skis for beginners focused on easy handling and support. The superior rocker not only allows a smooth turn initiation, but also allows the skier to drift, slide and turn more easily.

The composite core provides a soft, smooth flex and the center sidewall reduces weight while maintaining stability in the center of the ski. For more riding comfort, the VMotion1 binding provides a comfortable connection to the snow and is compatible with GripWalk soles - a rubber sole on or added to many boots that makes walking easier and more comfortable. The Flair 72s women's skis are the perfect companion to start a lifelong relationship with skiing.

Binding is included in the price of the skis.
