Description

Merrell men's shoes. Men's hiking boots in a universal color combination are easily combined with other hiking clothes. Trek shoes have a high-quality waterproof Gore-Tex membrane, thanks to which you will be dry even in adverse weather. The durable upper ensures sufficient breathability and air circulation. Trekking shoes for men have a reinforced toe and heel, so the foot will be stable even on uneven terrain during hiking adventures. With the help of tying on the laces, you can adjust your footwear for the forest according to your needs.

Merrell shoes are the right choice for tackling hiking trails. They are comfortable thanks to Kinetic Fit™ BASE technology, a removable and shaped insole ensuring flexible support. The EVA foam midsole perfectly absorbs shocks. Outdoor shoes are grippy thanks to the Air Cushion sole, which has protrusions and grips well on uneven terrain. It provides cushioning and does not slip even on wet surfaces thanks to M Select™ GRIP.
