**Available sizes**

**Reference number**

**Ean number**

**Quantity**

**Suggested retail price:** 49.99 € s DPH

### Description

Fischer junior hockey stick. The hockey stick for children has a modern design. It is designed for young hockey players and made of durable materials. Cap Tech technology was used in production, where a patented micro thin foil system is wrapped around the shaft. The latter extends its resistance and durability. The Mono-Comp-Tech technology, on the other hand, stands out because the Fischer hockey sticks are manufactured in one single process, without combining the shaft and blade in separate steps.

The blade of a children's hockey stick is suitable for all types of inline surfaces, including asphalt surfaces. The Fischer hockey stick will please all young hockey lovers.

### Product details:

- composite hockey stick for children
- modern design
- Cap Tech technology extends the durability and service life of the shaft
- Mono-Comp-Tech technology
- suitable for all inline surfaces and asphalt
- bend: left
- length of hockey stick: 163 cm, 150 cm after heel

### How to proceed when choosing the right hockey stick/blade bend?

- If you hold the hockey stick with your left hand down, order the L side (bend the blade to the right)
- If you hold the hockey stick with your right hand down, order side P or R - (blade bend to the left)
