Description

Adidas children's shoes. Children's sneakers have a modern design and were made of high-quality, even recycled materials. White sneakers for children are decorated with blue three stripes and on the heel there is a red design element with the inscription of the brand. Children's sports sneakers are comfortable thanks to the inner insole and padded collar.

Branded sneakers for children have elastic laces, which are complemented by a strap with Velcro. They are easy to put on and take off, which both children and parents love. Children's boots have a firm but flexible rubber sole that will support every step and jump. Adidas children's shoes are a suitable choice for school, free time or clubs. You can easily combine them with any children's clothing.
