Description

Mondraker electric mountain bike. Ebike Crafty R enriches the kinematics of the ZERO suspension system, which provides extremely flexible suspension and at the same time does not waste energy. An electric bike is really agile on trails, which is very necessary in an eMTB. All this adds up to maximum fun and excellent value for money.

The e-bike comes with a Bosch Performance CX Line Smart Control motor, a brand new Mini remote control and an integrated system controller. The CRAFTY R electric bike is the most competitive enduro ebike on the market.
